Green Rhino would like to introduce you to the

TRANSFRONTIER KALAHARI NATIONAL PARK

!Xaus Lodge is situated in a remote desert where water is an extremely scarce resource.

Electricity is generated for four hours in the evening, and an hour mid-morning. This means no TVs, radios, electronic devices or electric kettles and espresso machines. What it does mean is wonderful hours of silence, and an opportunity to unwind from day-to-day life.

Telecommunications signals don't reach the Lodge. No cell phone, Wi-Fi, telephone or TV signals. The Lodge and the vehicles have 2-way radio links with SANParks facilities, and management has a satellite phone for emergencies. The joy of visiting !Xaus Lodge is that you will be 'off the grid'.

Supplies – especially food and drink - are trucked in from Upington – a 720km round trip. Meals are carefully planned and cooked based on locally available fresh food, using the best possible ingredients we can source.

Activities include

Night sky viewing and stargazing, sundowners on the dunes, game drives and visits to the local crafting village, giving you an insight into the modern lives of the local Bushman Community, morning Wilderness Walks with guides and trackers
